IP ASSET LLP | PRAMA HOUSE | 267 BANBURY ROAD | OXFORD | OX2 7HT  
REG NUMBER | OC316258 | AT | 30 BANKSIDE HOUSE | OXFORD | OX5 1JE | UK

## ENGINEERING & PHYSICAL SCIENCES

### Aerospace

- Gyroscopes & rate sensors
- Gas turbine engines
- Airframe structures & design
- Materials processing
- Manufacturing techniques
- Aircraft anti-icing devices
- Aircraft wing design & manufacture

### Agriculture

- Tractor and gearbox design
- Agricultural machinery
- Mastitis prevention equipment
- Milking equipment
- Animal reproduction devices

### Automotive

- Automotive gearboxes & transmissions
- Automotive parts
- Fuel filters
- Combustion chamber & valve seat design
- Traction control systems
- Engine control systems

### Banking Equipment

- Cash machines
- Cash handling & sorting machines
- Consumer Engineering
- Cyclonic vacuum cleaners
- Dryers
- Vacuum cleaner accessories

### Entertainment

- Gaming machines
- Games & toys

### Environmental

- Pipeline construction
- Wind & wave power generation
- Glasshouse design
- Lithium polymer battery manufacture

### Industrial

- Cryogenic & PSA air separation
- Burner & Combustion Technology
- Clean Coal Power Generation
- Combined Heat & Power Generation

### Medical Equipment

- Dialysis & haemofiltration devices
- Medical implants and procedures
- Low power X-Ray imaging systems

### Mining

- Cable bolt design & manufacture
- Fastening devices
- Oil & Gas
- Pipe design & manufacture
- Adhesive technology
- Protective coatings
- Drilling & Exploration

### Sports Equipment

- Skis & ice skate design

## ELECTRONICS

### Computing: Hardware & Components

- Memory circuits
- Printing devices
- Engine control

### Networks

- Computer networks
- Internet networks
- Mobile phone networks over the Internet

### Software

- Predictive text software
- Engine and traction control software
- Automated pay systems
- Relational databases
- E-mail processing software
- Web tracking software

### Photonics

- Laser technology
- Optical fibres
- Photonic devices
- Holographic displays
- LEDs

### Tagging & Identification

- RFID devices and scanner systems
- Unique fibre pattern scanning systems

### Telecoms

- Mobile battery technology
- Mobile phone & PDA data entry systems
- Mobile phone & PDA hardware
- Paperless receipt systems
- Time & frequency division multiplexing protocols

### Wireless technologies

- G3 mobile phone networks
- Radio transmitters
- Space communications & antennae

### Display technologies

- Outdoor advertising display systems
- Electrostatic spraying

## CHEMISTRY

### Biocides

- Wood protection
- Aqueous formulation protection

### Detergents

- Dishwashing chemicals
- Washing machine detergents

### Foods

- Pet food
- Human food

### Industrial Chemicals

- Coatings
- Inks
- Thickeners
- Fuel marking compositions
- Plastic additives
- Polymerisation catalysts

### Personal Products

- Hair dyes
- Sun screen formulations

## LIFE SCIENCES

### Biochemicals

- Extracts from fungus, etc
- Chemicals obtained from genetically engineered organisms
- Monoclonal antibodies

### Medical Devices

- Neuro-thrombectomy devices
- Arthroscopy devices
- Tissue ablation devices
- Spinal compression devices
- Dialysis and haemofiltration devices
- Medical implants and procedures
- Magneto-rheological fluid joints

### Pharmaceuticals

- API's
- Pharmaceutical compositions
- Treatments and dosages
